GOAL

Part time remote job, or freelance projects, 300\$ per month

SKILLS

JavaScript, React, Node.js, MongoDB, Redux, HTML, CSS

EXPERIENCE

07-2018–09-2019 student, *Go IT Academy (full stack)*
· Studied as full stack MERN developer

09-2019–today Students` pet projects, *Go IT Academy*
· Worked on both front-end (html/css, js, react, redux) and back-end (node.js, express, mongo db) parts of the pet students` projects.

EDUCATION

07-2018–09-2019 It courses, Kyiv, *Go IT Academy*

07-2018–today Self-education in MERN-stack area

ACHIEVEMENTS

Taking part in seldom projects with different teams, I like most a team work and component approach.

Github

<https://github.com/StaniislavKaisin>

As a pet project, please consider SPA created with the following stack:
#TS, #React, #Redux, #Material-UI, deployed with #Docker on Heroku
(please reload the page for hot-up).
